

January to March 2018

Soft Skill Session

A life skill session on 'Work place Ethics' was conducted for Bandra and Chembur beneficiaries by our volunteer Ms. Savita John. She talked about the ethical behavior practices pre and post hiring in an organization. Session also focused on the aspects of professional code of conduct at work place.

Jumble Sale

A Jumble Sale was held at Cardinal Gracias School, Bandra. Household items, gift articles and Personal Computers were up for sale. The Jumble Sale; managed entirely by our beneficiaries from Bandra and Chembur centres, helped them to strengthen their retail marketing and soft skills.

English Immersion Program Certification

Beneficiaries from Patuck Gala College of Commerce were awarded certificates on successful completion of English Immersion program. Dr. Meeta Pathade - Principal of Patuck Gala College distributed the certificates and lauded the program outcomes.

Certificate Distribution

A Certificate Distribution ceremony was held for the beneficiaries of Panvel centre. They were presented the certificates by Prof. Mani, Vice President - ITM Group of Institutes and Dr. Ashok Hande, Neurologist - Apollo Hospital.

Yoga Fusion Dance

A few talented beneficiaries from our Vashi centre presented a Yoga Fusion dance at LTI's Annual event - Scintillations. The beneficiaries received a great deal of appreciation from LTI's senior employees for showcasing their talent through yoga and dance movements.

- Sujoya Foundation hosted the Annual Capacity Building event for the NGOs associated with LTI's CSR projects. The objective of this event was to develop interpersonal skills of the project implementation staff. The event gave the participants an opportunity to understand the projects run by other partner NGOs of LTI .
- Beneficiaries from Bandra, Kurla and Vashi centres participated in a Computer Immersion Program. The objective was to strengthen the technical skills of the beneficiaries through competition and team work. Computer puzzles, quizzes and practical games were conducted to test the computer skills of the participants.
- Differently abled beneficiaries from Kurla centre were awarded certificates on successful completion of SMART+ training program. A few beneficiaries and their parents shared their transformation journey from skilling to employment

Women's Day Celebration

On the occasion of Women's day, Ms. Mumtaz Shaikh from the rights-based organization- CORO conducted an awareness session on Women's rights. This event was attended by the beneficiaries and parents of Bandra centre. She generated awareness about women's rights such as right to property by registering property in one's name, importance of having a health insurance and so on.

Centre in Focus

Sujoya Foundation's Kurla centre won the 'Most Innovative and Active Centre' award. The award was presented by Tech Mahindra Foundation for actively implementing the skill training program for differently abled youth using innovative methods.

LinkedIn Visit

The Global Impact team from LinkedIn for Good met with the beneficiaries of English Immersion Program. They witnessed how the program is being conducted and participated in a conversational activity with the students. The team commended the program on its LinkedIn profile and encouraged the beneficiaries to communicate in English.

Volunteer's Reflection

I have been associated with Sujaya Foundation since October 2013. I have been teaching English, Computers & PD on Saturdays at various centres. It has been a fun-filled, fantastic experience. The students are so enthusiastic & excited to learn, that it makes our job so much easier. It's not that only the students are learning, even I have got to learn so much from them. So a big thank you to all the students, teachers and support staff for all the wonderful memories.

- Vishal Thakker, Deutsche Bank

Exposure Visit

An industrial exposure visit was organized for the beneficiaries of Kurla centre to the ITM Group of Institutes, Khargar campus. This visit helped them to gain practical experience about work place environment and work scope related to IT enabled services (ITeS).

Student in Focus

Kimaya Bhosale, 22 has Speech and Hearing Impairment. After successful completion of her training program at Kurla centre, Kimaya was offered a job at Masina Hospital. At Masina, she is working as a Hospital Management System Executive. She is handling the administration and accounts related responsibilities. The hospital staff describes Kimaya as a multi tasker and is happy with her performance.
